A TERRIBLE LOSS.

What the Sudden Brenking Down of manny Men and Women Means. Anyone who has observed, investigated

or read, must have seen that during the past en years, the power and vitality of the American people have been growing less. People who once were strong and vigorous now feel tired and languid. Men who did set know what fatigue meant, now realize they cannot stand so much as formerly.

Women who were once the picture of health, now are weak and often despendent. Even The only as the control of the children in too many cases are puny where they should be bright and healthy and Ballinger.

These experiments were conducted with the greatest skill and care, and resulted in the discovery of a preparation, which taken into the body, stimulates the proper organs to assimilate albumen, thus adding life, banishing disease and inparting health to the entire system. This great preparation, so discovered, was Volina Cordial. It is a pure, harmless yet powerful compound, containing just those vegetable elements accessary to retain health and prolong life. It is undoubtedly doing more to impart new ife and activity to the race, than any other discovery of modern times. It is stimulating, invigorating and yet contains no element that can, in the least, barm even a shild. blidt.

These are facts not given at random, but These are facts not given at random, but serious and carnest truths, confirmed by teientists as well as by experience. There are hundreds of men and women in their graves to day who might have been alive and happy, had they known these truths and heted upon them in time; and it is painful to think of the intense suffering, terrible sickness and vast number of deaths which wight have been avoided it records had only night have been avoided, if people had only tealized and known.

PURELY SPITE WORK.

Why the Finest School Bouse in the Terri-

tory was Burned.

Special to the Gazette.

VINITA, I. T., Oct. 29.—Some two months ago the public school building at this place, built by subscription at a cost of \$2000, was burned to the ground during the night. Incendiarism was evident, and without delay \$500 reward was pledged for the conviction of the guilty party. After the local officers had looked into the case a lew days without success, the services of a detective from abroad were secured. He was not long in finding evidence sufficient to cause the arrest of William Daugherty, a Shawnee, and his wife, who is a white woman. Both were convicted, and to day were sentenced to serve ten years aplece in the Cherokee prison. The motivs was shown to be purely spite, because the woman's children by a former husband, a white man, were not permitted to attend the school free, such being the law. during the night. Incendiarism was evifree, such being the law.
